TO THE MEMBERS OF THE CLASS OF 1999

Congratulations! You are the 127th class to graduate from Saugus High School.

Whether you follow the path of business, education, science, art or technology, you have had the foundation of uniqueness, individuality, fairness, and respect bestowed upon you by the faculty at Saugus High School.

You are well-prepared to face the future, albeit with the uncertainty and anxiety that may torture your minds. You are better prepared to conquer the demons of prejudice, bias, and hunger which, I hope, become only words with no definitive meaning for celebration.

The next millennium affords you boundless opportunities to secure happiness for yourself and your families as well as provide for the natural safeguards of your community and nation. You should witness the much needed panacea of the dreaded diseases that have conquered many of our family members and friends.

The frontiers to science should pave the way for the next generation to witness new technology, new inventions and new job opportunities.

As you look to the future, remember your past, and become the individuals who engulf pride, tolerance, and respect for your fellow human being.

Best wishes and good health.

The Saugus Public Schools does not discriminate on the basis of race, color, religion, sexual orientation, national origin, age, gender or handicap in admission to, access to, treatment in or employment in its programs and activities.

I am finally leaving High School! I do not think I would ever come back. I did not want to be a clone like everyone else. I choose to step out of the norm and be myself and I am special because I did. Well that is my message that people can think about. I will only miss a few people, Maria, Kim, and of course Ashley. I hope Mike L. gets out of High School.

Wben I think back over my four years at SHS, I'll always remember all the fun I had bere. Not only did I get a great academic education, but I also got a great education on life. I had wbat I believe to be the bet teachers possible at SHS. Saugus High School was not only a place to learn, but I had a lot of fun as well. I was lucky, I bad a lot of my teachers for two years whicb allowed me to gain more than just a student-teacber relationship with them, but a student-teacher bond witb them as well. I learned a lot about myself over the past four years, and I just hope to use what I learned at SHS to belp further my education at tbe college level.

As I leave the hallowed halls of Saugus High I can't forget the remarkable moments that have occurred there. I will never close my eyes to the essential knowledge I've acquired nor will I forget the superfluous nature in which I was educated. It will be a morose day when all the diurnally viewed visages are lost but let those deserving live on to greatness & the sadness will be lifted. To those I love, I love you, to the remaining ill-fated masses have fun in Hades. I thank my friends for dealing with my infallible qualities & for being there when I needed you. The Simpsons, Nirvana, Blue, Cigars, ARMY, Cheeseburgers, & family. Thank you Janelle for making my life complete, I Love You.

You know it's kind of funny, when I went to school as a freshman I hated school. I especially hated going. Now that I think about it, though, I am going to actually miss this place. I have learned to cherish my last days of high school. I do this because my life will forever change and I now want more than anything to do it over again. The things I will miss most from this school will be my friends, because after graduation day it will be the last day I see them. Everybody will go their own separate way into the world and only my real close friends and my family will be there. So for all future classes remember me, for my soul will forever haunt these hallways. I am Superman! Spoon!

William MacNeill

William MacNeill was more than just a teacher, he was a "character" who added color to the whole school. During his career at Saugus High, Mac, was dedicated to his students in many ways. He not only taught in the classroom, but also coached various sports throughout the years. His expertise spans from coaching football, to track, to organizing an intramural volleyball league. He not only coached the golf team, but also drove the bus. He had the ability to open our minds as well as our hearts. He taught us to appreciate the little things in life and not take anything for granted. He showed students how to open their eyes and see the world in a new way.

His presence in the halls of S.H.S. is greatly missed. The WD wing no longer has the aroma of dermastad beetles, and the students can no longer be found roaming the hallways with the infamous passes from Mac's room. Although the time we spent with Mac was short, the memories we have will last forever.
